This change to a paragraph in the specification will replace all prior versions.

Page 6, lines 5-11, change paragraph as follows:

Except for Mixed Proteases, all other ingredients listed in Table 1 are available by the chemical or common name listed. Mixed Proteases is a mixture of [natural] enzymes, primarily lipase and protease. The mixture of enzymes can be the same or similar to those disclosed in U.S. Patent Nos. 4,152,418 to Pader; 4,959,179 to Aronson et al. and 5,089,414 to Christner and incorporated herein by reference. For example, Pader '418 discloses Protease, Lipase, Bromelain, Papain and Trypsin, as mixed enzymes. The enzyme mixture is the active ingredient of the present invention and is the right combination of enzymes that function to remove toxins that can cause hair loss.
